

FIERCES FIGHTING OF WAR TAKES PLACE ON WESTERN WING OF ALLIES

Teuton Cavalry Succeeds in Breaking Through Allies' Lines But Not in Sufficient Strength to Make Their Feet Appreciable—Are Forced to Retire With Heavy Losses—Never in History Have So Many Come in Close Contact With Cold Steel and Kept Up Struggle So Long.

On the battle front, via Paris, Oct. 7.—(12:11 p.m.)—The fiercest fighting which has marked the conflict in the French theater of war has taken place since Monday on the western wing of the allied armies. New forces of German cavalry and infantry which have appeared in front of the allied lines have used every resource and every effort to attain success. They have thrown themselves again and again at the French and British lines and have brought equally strong bodies of troops forward to oppose them.

The battle is no longer one of machine-like strategy of two armies, but a contest centering in the powers of endurance of two bodies of two big men beings, each as determined as the other not to give up the struggle before victory is assured. Here and there the lines have faltered only to be other the under the shock, but again has been tightened up and become firm.

Allies' Line Broken.
At one point the German cavalry entered in breaking through the allied lines, at a place which must remain undisclosed, but not in sufficient strength to make their feat of appreciable importance. The retirement of the allies was, however, fully in accord with the plans of the general staff. The breach in the line was at an acute angle, and the Germans were placed in a very precarious position from which they were ousted with great loss later in the day.

All through last night and today the fight proceeded, until this evening, when a period of calm set in. Never, perhaps, in military annals have so many come to close grips with cold steel and kept up the struggle so long, in both sides and on both sides. Instances have been recorded of daring bravery, and the French and British troops, who themselves showed unparalleled coolness and courage without exception, when the fury of the battle died down, expressed admiration for the fearlessness of their German opponents.

All Officers Killed.
The terrific nature of the fighting may be seen from this fact: "One company of French infantry started the war with 190 men and a complete complement of officers. (Since then it has received drafts bringing the total up to 224. Today the company consisted of ninety men commanded by a sergeant, all the higher officers having disappeared."

The heroic self sacrifice shown by wounded men is exemplified in the reply of a British soldier to a comrade coming to his assistance with, "Hike off, I'm no good any more."

An official announcement made known today for the first time the vast numbers of the German forces fighting against the allies in Belgium and France. They are composed of no fewer than 22 corps of the active German army, 18 divisions of reserves, several divisions of the landwehr, and large detachments of the landsturm. Under normal conditions this number of units make a grand total of nearly two million men. From this total, however, losses must be deducted. The numbers of allies facing the Germans has not been made public, but it is known to be very large.

German Flag Found.
In an abandoned German trench opposite the English lines unveiled since September 15 was found today a German regimental flag beneath a great heap of dead. The emblem was taken to the headquarters of the British field marshal, Sir John French.

It is generally expected that tomorrow

Thursday, the fighting on the western wing of the allied armies will be continued with incredible speed.

SAYS DEPRESSION NOT ENTIRELY DUE TO PRESENT CRISIS
Professor Shortt Contends War Aggravated Condition Already Existing.

ONLY SOLUTION INCREASE OF NATURAL PRODUCTION
Thinks Canada Will Be Able to Demand Share After Hostilities Cease.

Toronto, Oct. 7.—The effect of the war upon Canadian trade, was the subject of an address yesterday by Professor Arthur Shortt, of Ottawa, to the Canadian club.

"The present depression," said Professor Shortt at the beginning, "is not altogether due to the war. The war has aggravated a condition which existed before the war was declared."

"We all must have realized before the war," continued the speaker, "that Canada had been overdoing speculative investments. There was an over development of cities and towns in the west which stimulated industries in the east."

Immense investments had been made in the country which are incapable of giving immediate returns and it was inevitable that areas thus affected should remain idle until the dominion as a whole had a chance to catch up. Professor Shortt advised Canada first to go on increasing its national production, and second, to reorganize the system of the national credit so that it might be conserved; so that after the war was over with its consequent scarcity of capital, Canada might be in a position to demand her share, supported by a businesslike statement of the position of the railways, manufacturing and other interests.

GERMANS FORCED TO RETIRE IN ARRAYS

Paris, Oct. 8.—(1:15 p.m.)—The following official announcement was made in Paris this afternoon: "First: On our left wing in the region of the department of Nord, the enemy has made progress at no point. At certain points he has moved back, particularly to the north of Arras, where the fighting is developing under conditions favorable for us. The operations of the opposing forces of cavalry are developing at the present time almost as far as the sea coast on the north."

"Between the Somme and the Oise, in the vicinity of Roye, the enemy is still in force. He has retained the major part of the positions we were obliged to give up."

ADDRESS IN REPLY WILL BE MADE BY FLUENT SPEAKERS

Hon. A. G. MacKay, member of the legislature for Athabasca, and J. G. Turgeon, member for Riveston, were chosen to move and second respectively, the address in reply to the speech from the throne, are among the most accomplished speakers in the province of Alberta. It is the custom to choose the two youngest members on the government side to move and second the address—either the youngest in the house or in age. It is also generally aimed to have the two chosen for this oratorical effort (for that is largely what it is) two of the finest talents in the house.

In the present case the government has chosen two of the youngest in the house, perfect English speakers, and fluent orators. Probably there is no one in Alberta who has taken any interest whatever in Canadian politics and who does not know something about Hon. Alexander Grant MacKay, former cabinet minister in the Ross government in Ontario and more recently leader of the opposition in that province. He comes from the old school of Upper Canada, Scotch-Irish in Ontario, from which has sprung so many western liberal leaders, and is not only a typical and fundamental liberal and a democrat to the hilt, but has the happy faculty of expressing his opinions intelligently and convincingly presenting them to others.

Mr. Turgeon, of Hardisty, is not so well known in Canada as his colleague, but in politics till the last provincial election, but little fact to become a prominent figure in the politics of the west. He comes from a liberal family in New Brunswick, and his brother is now the liberal agent general of Saskatchewan. He has a style of speaking all his own, uses a few words, and is very pleasant.

BATTLE LINE IS EXTENDED NORTH TO THE FRONTIER

GERMAN CAPACITY FOR RESISTENCES NOT EXHAUSTED
Reinforcements Sent to Assistance of Kluck Make Dramatic Appearance.

THOUGHT DETERMINATION BRING SPEEDY DECISION
Official Bureau Says Reports From the Front Generally Satisfactory.

London, Oct. 8.—The Germans have again displayed their resourcefulness by simultaneously bringing up strong reinforcements to the assistance of their much harried right wing in northern France, and by pushing their attack on Antwerp, from which place the Belgian government is reported to have removed yesterday, going to Ostend.

There is as yet no official confirmation of the transfer of the Belgian seat of government, which will be the second move since the opening of the war, but an Amsterdam paper states that such a decision was taken and an Ostend dispatch says that some of the ministers have already arrived there. Besides the British official report reports that the Germans have pushed forward their positions against the stout resistance of the Antwerp garrison.

Keels Dramatic Appearance.
The reinforcements which were sent to the assistance of General Von Kluck, which were in preparation in the vicinity of Lille, preceded by a large force of cavalry. This, which is the first time that the German capacity for resistance on the allies' left is not exhausted, has the tendency to extend the battle line far further northward toward the Belgian frontier, where, according to the French communications issued yesterday, a violent battle continues. The opposing forces are extending into the regions of Lens and Launoy, and are prolonged by masses of cavalry which are in action up to the Vosges district. The French are to have repulsed fresh efforts of the Germans to oppose the progress of the

AFRAID SHE WAS DYING

Suffered Terribly Until She Took "Fruit-a-lives"

ST. JEAN DE MATIA, JAN. 27th, 1914.
"After suffering for a long time with dyspepsia, I have been cured by 'Fruit-a-lives'. I suffered so much that I would not eat for I was afraid of dying. Five years ago, I received samples of 'Fruit-a-lives'. I did not wish to try them for I had little confidence in them but, seeing my husband, I decided to do so and at once I felt relief. Then I sent for three boxes and I kept taking until I was cured. While sick, I lost several pounds, but after taking 'Fruit-a-lives', I quickly regained what I had lost. Now I eat, sleep and digest well—in a word, I am completely cured, thanks to 'Fruit-a-lives'."

MADAM M. CHARNICK, 250, 500, a box, 6 for \$2.50, trial size, 25c. At all dealers or send in receipt of price by Fruit-a-lives Limited, Ottawa.

HEAD OF RED CROSS NURSE IS BLOWN OFF AT BATTLE OF AISNE

London, Oct. 8.—Ernest Hill, a young Englishman employed on a farm near London, has received word that his sister, a red cross nurse, was killed in a battle in France. A shell was dropped into a company of 60 British and Miss Hill had her head blown off. This was the only death of a woman in the war who was dangerously wounded in the same fight.

The Paris Academy of Science has awarded a prize of 100,000 francs to Vincent for his work on typhoid fever.

GERMAN TORPEDO BOAT DESTROYER IS SUNK BY MINE

Observers on North Sea Island Here Explosion and See Big Splash.

London, Oct. 7.—(2:10 p.m.)—A dispatch received here from Amsterdam says that a German torpedo boat destroyer is reported to have been sunk by a mine off the estuary of the river Ems, between the Netherlands and east Frisia, in the North Sea.

This news reached Amsterdam in a dispatch from the island of Schiermonnikoog, one of the Frisian islands in the North Sea, belonging to Holland. This message says that at the moment of the sinking of the mine, 10 o'clock this morning, the destroyer was to the northeast of Schiermonnikoog, not far from the estuary of the Ems. Observers on the island heard a sudden explosion and a huge mass of water arose from under the bows of the destroyer. The boat keeled over and disappeared under the waves within three minutes.

The periscopes of two submarines appeared on the scene. Their nationality could not be ascertained, but they probably were German. A German cruiser arrived from the Ems on a boat from under the bows of the destroyer. This message says, in time to save the crew of the destroyer.

HORSES OF BRITISH REGIMENTS IN FINE FETTER AFTER REST

Paris, Oct. 8.—Tysons returning here from the battle front say that the horses of the British regiments are in fine fettle after their long rest, during which the troops have cared for them with remarkable tenderness and thoroughness. The French mounts, also, are reported to be in good shape. Most British regiments have arrived in the fighting zone.

Despite difficulties to the contrary, it is reported that the Crown Prince, Frederick Wilhelm is still with his army.

TEUTONS TAKE BIG BATCH OF RUSSIANS

Berlin Report Says Engagements in France Have Not Been Decided.

London, Oct. 8.—(2:25 a.m.)—A Berlin dispatch to the Reuter company contains an official statement given out at the general headquarters in Berlin on the evening of October 7. It follows:

"The engagements on the right wing in France have not led to any decision. The attacks of the French in the Argonne and from the northeast front of Verdun have been repulsed."

"On Antwerp the attack has crossed a section of the river Neth."

"The attacks of the Russians on the government of Suwalki have been repulsed, the Russians losing 2,700 prisoners and nine machine guns."

"In Poland in minor successful engagements west of Ivanograd, we captured 4,800 prisoners."

THE ACME CO., LTD.

THIS IS AN OPPORTUNITY TO BE CLAD IN HIGH GRADE GARMENTS FOR LITTLE MONEY

JAPAN'S ACTION IS CAUSE OF INTEREST

Activities in Marshall Islands Followed Closely by United States.

London, Oct. 8.—Japan's action in the Marshall Islands has aroused great interest here, particularly on account of the general belief that Japan had given assurances that her activities would be confined to the continent of Asia. This view was made on a statement made during August, immediately following Japan's ultimatum to Germany, when apprehension as to the extent of Japanese operations existed not only in America, but also in Australia. On August 19 this official statement was made here: "It is understood that the action of Japan will not extend to the Pacific beyond the China seas, except as may be necessary to protect Japanese shipping lines in the Pacific, nor by Asiatic waters westwards of the China seas, nor in foreign territories except in the territory of German occupation on the continent of Asia."

It is certain the British government keenly wishes to avoid complications. Nevertheless the situation is regarded as certain to arouse much comment.

GERMANS SUCCEED IN CROSSING NETH

Presumed Antwerp Will Have to Submit to Bombardment or Siege.

London, Oct. 8.—(443 a.m.)—The Germans succeeded in crossing the river Neth early on Tuesday, according to the Times correspondent in Antwerp. Telegraphing under date of Tuesday night he says: "At four o'clock this morning the

German succeeded in making good their footing on the north side of the river Neth. They said during the night small detachments had got across and were driven back or wiped out. "Two thousand Germans were on this side of the river, I believe, by six o'clock this morning, and since then they have by all accounts been coming in numbers. "Presumably Antwerp will now have to submit to a bombardment, or perhaps a siege. "Two boats leave in the morning with the last of the English and French colonies, and with both of the consuls on board. The consuls are going because their usefulness is absolutely at an end. The burgomaster has issued notice that no restriction will be placed on the departure of the civilian population, and great numbers of people will probably go to night or tomorrow, while the roads to Ghent and Holland are still open. "Presumably the boats mentioned will be the last to leave, for Antwerp is putting its house in order. We still cling to the hope that the enemy may yet be driven back across the river tonight or tomorrow."

Frank Kelley, who escaped from Fort Saskatchewan on Wednesday morning, has not yet been recaptured, although bodies of men have been securing the vicinity ever since. It is thought that Kelley has not moved far from the place, probably taking refuge in the thick brush near by. Refugees have been sent throughout the province giving his description and asking the police to be on the look-out for him.

VAST IMPROVEMENT IN ACOUSTICS, GENERAL OPINION OF MEMBERS

There has been a vast improvement in the acoustics of the assembly hall in the legislative building. This was easily noticeable at the opening of the legislature on Wednesday. "Hitherto there has been a great difficulty in hearing what was said in the hall, but the trouble has been rectified and now it is possible to distinctly hear every word that is said. This improvement was effected by the Canadian H. W. Johns-Manville company, through their local representative, W. C. Burns. The company has a special department for this work. The

result is obtained by placing felt of a special nature in panels in the ceiling and walls at the proper locations. These felt are covered by melbaena painted and decorated to match the interior of the building.

BOMBS DROPPED IN ANTWERP BY GERMAN AIRCRAFT 20 KILLED. Antwerp, Oct. 8.—The condition of panic among the populace was increased today by the appearance at 11 o'clock this morning and 3 this afternoon of German aircraft which dropped bombs, destroying seven houses and killing a score of people.

PREPAREDNESS FOR WHAT WILL HAPPEN WHEN THE WAR CLOSES

Without the shadow of doubt the close of the European war will witness an unprecedented immigration movement toward Canada. Throughout the war-cursed area there must inevitably be millions whose greatest anxiety will be to get away from the scene of devastation and the unbearable burden of taxation which the war will entail. With proper conditions provided these millions could easily be the medium through which Canada might become the greatest agricultural country in the world. Canada already has the land. What she has always required is people on the land. As the people are about to come, it should be Canada's business at the present time to be making preparation which would result in their being able to get onto the land, and on conditions which would permit them to stay there after they do get on. Otherwise, we but remove the unemployment problem of Europe to the Canadian cities.

As a part of these necessary preparations Canada will require to remove the barriers to agricultural prosperity in this dominion by taking down tariffs in a most wholesale manner, by the extension of the British preference, by the consummation of the reciprocity arrangements to open the United States market, by a readjustment of freight rates which will make possible the shipment of the products of the western farm, by banking arrangements which will make possible the borrowing of reasonable amounts of money by industrious settlers, and by land and taxation legislation which will guarantee that the idle land of the west shall—free from speculative exactions—remain available to the farmer at a reasonable price no matter what the extent of the immigration.

In interviews given out within the past few days Hon. Joseph Martin, who has had opportunity to see the big problems from both sides of the Atlantic, declared that he had Sir Wilfrid Laurier's authority for stating that the liberal party would consider it its first duty to see to the abolition of the tariff on farm implements, saw-milling and mining machinery and all equipment necessary to Canada's basic industries; would, if authorized by the people of Canada, secure the United States markets and would make every possible effort to free production from the exactions of the customs house. The banking is another feature which must be attended to with due boldness when the time arrives. The matter of eliminating speculation so as to provide that the land shall be for the farmer is distinctly up to the provincial governments, and action thereon cannot be taken too soon.

All these things, however, must be undertaken while the war is still in progress so that Canada is ready for what will happen when the war closes.

THE UNCONSCIOUS MARKING OF AN EPOCH.

As an unexpected by-product of the war there is being recorded in Britain at the present time achievements in national ownership which cannot fail to have an effect upon the industrial methods pursued all over the world to say nothing of the effect upon public thinking. The nation is taking over railways, mines, industrial plants, all sorts of things, and handling them well.

In times of peace the argument with which proposals for the nationalization of industries or of utilities is met invariably the same in all countries—it is not practical; the public can not be entrusted to handle its own business.

But in time of war when the crisis comes there is seen the remarkable spectacle of the government stepping in between sunrise and sunset to take immediate charge of the whole railway system of the British Isles, and a tremendous part of its industrialism.

In Canada we have been discussing, in a sort of desultory and academic way, for the past quarter of a century or more, whether or not such a thing as government ownership of railways is feasible, or even possible. Meanwhile, we have permitted competing companies to build duplicate lines, to run duplicate trains, to sidetrack natural townships and ignore natural wealth and resources in the private interests and—as though these tremendously costly duplications and the insanities of the long haul were not a sufficient tax upon the national prosperity—to overload the railways system with a rather of watered stock which constitutes a burden equal to a war tax. This, we have permitted because we believed that the public could not operate a railway. Yet when the hour of stress arrives Britain discovers that in no other authority than the public authority dare an enterprise so intimately affecting national existence be allowed to rest.

And the question which Canada has been discussing for a quarter of a century Britain answers in a single day by taking over the railways—never recognizing, quite likely, that the achievement in all probability marks an epoch.

A MORE APPALLING HORROR IN THE WORLD'S WAR.

If there was any doubt about Rustem Bey, whom Woodrow Wilson ordered out of his house as a trouble maker, being all that the president believed him to be, that doubt is very effectively dispelled by Rustem Bey himself in an article which he has given the last number of World's Work.

Herein Rustem Bey concludes by declaring that as he sees it the time has arrived for unfurling the green banner of the prophet and declaring a holy war throughout the Musselman empires.

Quite probably old Rustem's words may be taken as the voice of Turkey, and a presage of a more appalling condition than ever in the world's war.

LEARNING SOMETHING OF CIVILIZED WARFARE

Abdul Aziz, ex-sultan of Morocco, and General Villa, revolutionary of Mexico, have their turn now. When Abdul was sultan the enemies who fell into his power received little consideration and no mercy; whereas Abdul was dubbed a barbarian. Villa, in the early stages of his war career, developed a nasty little habit of shooting his prisoners, an outrage against the civilized usages of warfare which shocked the world into protest against his savagery.

Now Abdul declares that while the Moors can shed blood without pity, their warfare was never characterized by the wantonness of the Kaiser's butchers, at whose barbarities his soul revolts, and General Villa ironically remarks that he is learning a great deal about the usages of civilized warfare.

PARAGRAPHS.

Civilization is progressing. The Crown Prince of Germany stole the pictures and bric-a-brac out of the chateau, whereas the vandals who despoiled Rome contented themselves with destroying the art treasures.

Latest dispatches say that the Germans are running short of gasoline. The despatchers of this situation will be understandable to some Canadians.

Evening Slippers for "My Lady"

The festive season will soon be at hand and every lady likes to have her feet look as neat and dainty as possible.

In our large stock of dress and evening slippers and pumps we feel we can fit and suit even the most fastidious dresser.

They come in velvet satin, patent suede and dull kid with Louis or Cuban heels, in plain or colonial styles with or without buckles.

Prices from \$3.00 up to \$7.00.

CITIZENS ACTION OF CUTTING DOWN SALARIES

To the Editor of the Capital:

Could you give me space in your paper for a few comments on the wage restrictions of civil employees. It may be necessary for those reductions in the working man's wages, but I doubt it. There is no earthly use in this determination of one department, as if any other employees family can live cheaper than a policeman's family. It surely shows the brain we have at the head of things in Edmonton. I would like to point out to the public a few things most people know concerning the police.

That department alone has caused the city more trouble and expense than all departments put together in the past three years. And up to the present they have done nothing to prove they are any better. They have been accused of graft, theft, drunkenness and inefficiency, even to accepting bribes from poor unfortunate women.

I see by that famous sheet, the Bulletin, the cut in expense the well advertised Mr. Hill made in the exhibition, but I should also like to know how much for Chief Hill's service, and how many more Manitoba men he is going to hire, when so many ratepayers going idle who would be glad of a job on the police force, since it has been so purified by the present cut. In my opinion he wants to make his while the sun shines. He must have quite a family income, son, son and daughter. The salaries are not all they get off the city. There is a man and a car at their disposal to take them to and from meals, not forgetting the joy riding evenings. Mr. Hill does not forget his friends in letting his son and daughter go to chief, and over a dozen constables on now and more waiting as fast as he can be the Edmonton men go. Now if Chief Hill wants to do a little to help them who have helped him he might withdraw his son and daughter from the department and be content with his own salary. I would like to mention there are as good men in Edmonton as ever came out of Winnipeg. In my opinion Chief Hill ought to use a little of the Christianity he professes by being content with a fair income and not be a wage hog, and give the man who pays rates in Edmonton the satisfaction that he will be doing what the council claim they are trying to do to help all without discrimination. Did somebody say police force? WILLIAM McLEAN, 641 Clara Street.

CORPS OF ENGINEERS WILL ACCOMPANY NEXT CANADIAN CONTINGENT

Montreal, Oct. 8.—Mr. Georges Janda, chief civil engineer, was announced to leave for Ottawa last night to confer with the militia department as to the part to be played by the company of engineers which he has raised. It is intended that the company shall accompany the second Canadian contingent. Already 250 men have enlisted and the applications still continue. Financial support towards the equipment of the company has also been received.

Shot By Friend.

Rail St. Marie, Ont., Oct. 8.—While travelling through the woods yesterday, eight miles from Markville, inspecting timber, Alex. McCarty, formerly a tug captain, was accidentally shot in the neck by his companion, Thomas White. The bullet entered McCarty's neck and penetrated the breast. There is little hope of his recovery.

Rheumatism

Muscular and inflammatory rheumatism, pain in the back, etc., promptly relieved. This potent, penetrating oil goes straight to the seat of the trouble, drives out the disease and establishes a normal condition. The standard remedy for rheumatism for a generation.

JEROME J. JEROME TALKS OF ALLEGED GERMAN CUNNING

Says Goose Girl in Anderson's Tales Shrewd Compared With Kaiser.

NO REASON TO FEAR DIPLOMATS OR ARMY

Predicts That at Close of War New Germany Will Be Built Up.

London, Oct. 1.—The Chronicle publishes an article by Jerome J. Jerome on the war. He says:

"Under present conditions, though the war may be long and terrible, it is inevitable that it can have any other termination than the utter collapse of the German empire in its present form. The Kaiser, for his own super-human power, preached to us by his lingo politicians, for their own ends, has already been laid. For super-human cunning, also, preached to us for the same purpose, turns out to have been a mere foundation."

"It is almost pathetic to read the record of her amazing stupidity. The goose girl in Anderson's tales, who calculated the price of her eggs while she walked into the ditch, becomes a shrewd and alert young person in comparison with the collection of pompous old imbeciles who have dragged Germany to her ruin. Her methods have been those of the stage villain. For the last ten years they have been discussing their previous plans at the top of their voices with all Europe listening and taking notice. 'Our white men and our brown men are now fighting side by side for England's cause. In the future there must be no foolish arrogance. English, German and native gentleness will share the same railway carriages. The native will walk upright like a man and his boots on into the presence of the Sahib and Mem-Sahib. Quite a few of the world's follies, which he hopes disappear as a result of this war.'"

"I can see no reason for our fearing either German diplomats or the German army. I can see no need for our hating the German people. We will meet them with their own weapons and we will conquer them. When we have driven out of their foolish boasting and their foolish pride we will make peace with them. Germany has sinned and Germany will pay the price of her sin. The history of nations is not such that any one of us can raise up his hands and thank God that we are not as others are. To talk as if the German people were all monsters who must never be forgiven is to talk the language of the school boy."

"Today, with the help of France and Russia, we are fighting the war lords of Germany. We will conquer them. We will, if the German people have not themselves by that time saved us the trouble, deprive them of all power of evil, and then we will give back to many and sober, patient, German people, purified by fire and made strong through suffering. They shall build up a new Germany, and we will be brothers."

Household Economy

How to Have the Best Cough Remedy and Save \$2 by Making It at Home

Cough medicines, as a rule, contain a large quantity of plain syrup. Two cups of granulated sugar, with one cup of warm water, stirred for 2 minutes gives you as good syrup as money can buy.

Then from a bottle of Big George's Pinex (50 cents worth), pour into a 10-ounce bottle and fill the bottle with sugar syrup. This gives you a good cough remedy, 24 cents, 10 ounces of really better cough syrup than you could buy for nearly \$2. Full directions with Pinex. It keeps perfectly and tastes good.

It takes hold of the usual cough or chest cold at once, and cures it in 24 hours. Splendid for whooping cough, bronchitis and colds. It soothes the inflamed membrane in the case of a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent lough cough.

Pinex is a highly concentrated compound of genuine Norway pine extract, combined with quinine, and has been used for generations to heal inflamed membranes of the throat and chest.

To avoid disappointment, ask your druggist for Big George's Pinex, and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Kinex Co., Toronto, Ont.

ENGLISH COLLEGES SEND THEIR QUOTA

Universities Open Fall terms With Hundreds of Vacant Seats.

TEUTON PROFESSORS FIRED

Much Discussion Has Arisen Over Action of the Faculty of Edinburgh.

London, Oct. 8.—The English and Scotch universities opened their fall terms yesterday with largely reduced attendance. Cambridge University had only 1,500 students, as against 3,500 last year, many of those at the institution last year having joined the army. The other seats of learning have lost students in about the same proportion.

Much comment has arisen over the action of the faculty of Edinburgh University in asking all its German professors and lecturers to resign.

The German Rhodes scholars and other German and Austrian students who have been attending English universities in large numbers all are absent this year, a majority of them being with their armies. The Very Rev. Thos. B. Strong, vice-chancellor of Oxford university at the opening of the term yesterday, speaking of the absence of the German students said: "I cannot believe that any of them were spies. We welcomed them and loved them. They passed through the innermost circle of our friendship, and I cannot believe that our frank and direct intercourse with them was unreal."

"It is difficult to see how a time of real friendship between England and Germany can ever come again," he continued. "If this war could have been delayed a few years, possibly there might have been some private friendships that a state of war might have been impossible."

Michael Ernest Sadler, vice-chancellor of Leeds university, at the convocation of Leeds, announced that three of the university's students already had been killed in action. He added that the university had sent more than 150 students and professors into the army as commissioned officers.

At Edinburgh University the attendance was about 1,000 below normal. There was a loss of 450 students in the medical department alone.

Pembroke College, Cambridge University, which was always called the sportsman's college, lived up to its reputation by sending 200 of its 270 students into the army.

NOSE AND HEAD STOPPED UP FROM COLD OR CATARRH, OPEN AT ONCE

My Cleansing, Healing Balm Instantly Clears Nose, Head and Throat—stops Nasal Catarrhal Discharges. Dull Headache Goes.

Try "Bly's Cream Balm." Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will breathe freely; dizziness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Bly's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasal discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucus dripping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Bly's Cream Balm" and your cold or catarrh will surely disappear.
